Mr. Richard Helms
Deputy Director for Plans
Central Intelligence Agency
Washington 25, D. C.

Dear Mr. Helms:

Enclosed and marked Attachment A is a list of documents originated by the Commission by the Central Intelligence Agency which the Commission contemplates using as exhibits in the "Oswald's Foreign Conspiracy" section of the report. Unless otherwise indicated, the Commission contemplates publishing each such document in its entirety.

We would appreciate receiving a letter from you approving the publication of the documents on the enclosed list. If you believe that some of these documents, or portions of them, should not be published, will you please provide us with an expanded list of your objections, as a basis for discussion.

The second page of Attachment A also contains a list of documents entitled "Other Important Files." There are papers which were sent to the Task Force by the Central Intelligence Agency and which refer to a communication by the Commission. The Commission does not contemplate using any of these documents. However, unless the Central Intelligence Agency objects, the Commission will leave them in the Task Force Document Library, where they will presumably be transferred to some depository, such as the National Archives, and thus made available for examination by anyone who is interested in them. Copies of some of these other important documents have been enclosed with this letter to aid in your identification of them.

Sincerely,

/s/ J. Lee Rankin
General Counsel
